To Whom It May Concern

LETTER OF REFERENCE

Toh En Rui Clement is a Diploma in Mechanical Engineering student in the School of Mechanical and Aeronautical Engineering, Singapore Polytechnic. He is expected to graduate in May 2023.

Clement was a competent student who demonstrated a positive attitude towards his studies. In his time with us, he made a sustained effort to improve himself, and attained very good grades in his final year assessments while demonstrated good working attributes throughout his Internship Program.

Clement was also a pro-active student contributing back to the school through his participation in numerous school events, which earned him a Gold with Honours Award in CCA activities. In such task-focussed groups as well as informal social settings, Clement treated others with respect and consideration.

Clement was thoughtful and respectful in his dealings with his peers and lecturers, offering his help whenever needed and was punctual with regard to attendance and work submission, and carried out his tasks well.

Overall, Toh En Rui Clement was a student who has showed interest in improving himself and exercised self-discipline. He set his personal and academic goals, and put in time and effort to achieve them. He faced setbacks with firm resolve. Through it all, he exercised integrity in his speech and actions.

We recommend Toh En Rui Clement in his application for a place in your academic institution. We are confident that he will do his best wherever he goes.
